£1274.15 + VAT = £1528.98 • €1784.15 + VAT = €2140.98

Benefits of attending:

- Hear the latest trends in injectable drug delivery from industry experts
- Know what is in development and recently launched on the market
- Consider the opportunities and advances in connected and smart injection delivery systems
- Gain an insight into how to measure patient pain and tolerability during injection
- Assess the interface between patient considerations and design processes
- Clarify the EU regulatory requirements applicable to injectable delivery systems
- Consider sustainability and its impact on self-care drug delivery
- Hear about formulation compatibility with drug container products
- Review primary packaging for injectable delivery systems
- Meet other medical device and pharmaceutical professionals in the parenteral market

Chair:
Dr Gregory Berman Director, Cantab Innovations Ltd, UK

With a panel of international speakers

In-house training

Coming to Management Forum for your in-house training provides an all-inclusive service which gives you access to a wide variety of content, learning platforms and delivery mechanisms as well as your own personal training adviser who will work with you from the initial enquiry through to feedback and follow-up after the programme.

With over 600 trainers, practitioners and experts across a huge range of fields, we can provide the training you need, where you need it, and at a price which suits your budget. Our approach to tailored learning and development consists of designing and delivering the appropriate solution for each client.

To get a FREE consultation and to find out how we can work with you call Aleksandra, our in-house training expert, on +44 (0)20 7749 4730 or email inhouse@management-forum.co.uk

FEE: The fee includes all meals and refreshments for the duration of the course and a complete set of course materials. If you have any particular requirements, please advise customer services when booking.

PLEASE NOTE: Management Forum Ltd reserve the right to change the content and timing of the programme, the speakers, the date and venue due to reasons beyond their control. In the unlikely event that the course is cancelled, Management Forum will refund the registration fee and disclaim any further liability.

Why you should attend
Injectable drug delivery is considered to be one of the most effective routes of administration due to the speed and effectiveness of delivery to the target, and recent developments have improved the patient experience. The global injectable drug delivery market continues to grow and technology is advancing. This, coupled with the ever-changing regulatory requirements, means that it is imperative for companies to stay abreast of the latest developments and challenges within the industry in order to remain compliant, as well as gaining a competitive edge.

This seminar has been designed to provide all those working in the industry with the latest information on the next generation of injectable drugs and devices and an update on recent trends, technologies and applications. It will also be a great opportunity to meet industry leaders, as well as like-minded professionals, and share common experience and best practice.

Who should attend?
This is a key seminar for all those working in the parenteral delivery area, including:

- Device development managers
- Senior project managers
- Engineering directors
- Formulation specialists
- Principal scientists
- Research and development associates
- Business development managers
- Market development directors
- Associate directors of regulatory affairs
- Heads of strategic product management
- Medical device quality managers
- Pre-sales and sales managers
- Project managers
- Biomedical engineers
- Device technology managers
- Device engineers
