PRE-FILLED SYRINGES
Quality, Quality, Quality:
from manufacture, through fill / finish to inspection
7 March 2016, Hilton on Green Park Hotel, London

INJECTABLE DRUG DELIVERY
Advances in technology for pens, auto-injectors, large volume pumps, patch pumps, needle-free, pre-filled syringes and other parenteral methods - plus a regulatory update
8 & 9 March 2016, Le Meridien Hotel, Piccadilly, London

Benefits in attending:
- Hear the latest trends in injectable drug delivery
- Know what’s in development for large volume and patch pump technology
- Keep abreast of market opportunities
- Understand the latest technologies using parenteral methods
- Clarify the importance of human factor studies and compliance monitoring
- Comply with the latest regulatory guidance and standards
- Meet other medical device and pharmaceutical professionals in the parenteral market

Chairman:
Dr Gregory Berman, Head of Medical, Kinneir Dufort, UK

With a panel of international speakers
Participants include: Astra Zeneca, Ypsomed, West Pharmaceutical Services, Portal Instruments, SteadyMed Therapeutics, Phillips Medisize, Mikron, 3P Innovation, Greensand, P/L Biomedical, Corvus Device, Oval Medical Technologies and many more

Additional information:
3P Innovation, Greensand, P/L Biomedical, Corvus Device, Oval Medical Technologies and many more

In association with
Falconbury Business Seminars
Day One - 8 March 2016

09.30  Welcome and Introduction
Dr Dale Charlton, ATS Sortimat

09.40  Improvements in the Manufacturing Process of Pre-filled Syringes
Alexandra Morandotti, Nuovo Omni

10.15  Pre-filled Syringes Systems and Secondary Packaging
• Regulatory requirements
• Types and trends
Horst Koller, HK Packaging Consulting

10.50  Discussion

11.00  Refresher

11.20  Pre-filled Syringes - Components and Manufacture
• Syringe components – An overview
• Syringe processing
• Interactions and consequences
Horst Koller, HK Packaging Consulting

11.55  Fill / Finish - Multi-Format Machine Pre-filled Syringes and Cartridge for Auto-Injectors
Speaker to be confirmed

12.30  Panel Discussion on: Pre-filled Syringe Systems and Fill / Finish

12.45  Lunch

13.45  Driven to Isolation: the Drive Towards Machine Isolators
Dr Arndreas Rothmund, Vetter Pharma

14.20  Visual Inspection of Pre-filled Syringes
• Why do we inspect? – The legal side
• Inspection basics
• Visual inspection in the real world
• Types of defects – Reasons and distribution
• Points to consider during inspection of syringes
Dr Andreas Rothmund, Vetter Pharma

14.55  Particle Detection and Siliconization in Syringes
Dr Oliver Valet, rapidID

15.30  Panel Discussion on: Siliconization and Isolators

15.40  Refreshments

16.00  Design Verification Testing of Device Function for Pre-filled Syringes
Lee Leichter, PIL Biomedical

16.45  Summary and Wrap up
Dr Dale Charlton, ATS Sortimat

17.00  Close of seminar

Day Two - 9 March 2016

09.00  Review of Day One
Dr Gregory Berman, Head of Medical, Kinneir Dufort, UK

09.10  What do Pharma Companies Want from Device Manufacturers?
Speaker (invited)

09.50  Get Out There and Listen
• Why medical devices have to be desirable, as well as safe and effective, to compete in their competitive set?
• Should human factors include emotional factors?
• Does your medical device have a competitive advantage?
• Does medical device be thought of as a brand?
• How successful devices from other industries are the ones that bond emotionally (as well as deliver functionality)
• Good and bad examples from other industries

10.30  Discussion

10.40  Refresher

11.10  Improving Adherence for Injectable Drugs
• Importance of adherence, outcomes and connected health
• Economic and health impact of non-adherence in the market today
• Historic approaches to improving adherence
• Case studies of Connected Health approaches to adherence
• Strategies for implementing solutions for injection devices

11.50  Leveraging a Device Platform - Some of the Considerations
• What is a 'platform'?
• Client vs. Provider responsibilities
• Documentation and structure
• Risks
• Change management
• A Case Study

12.30  Discussion

12.45  Lunch

14.00  High Viscosity, High Volume (HVHV)
• Current challenges to delivery
• Overview of existing solutions
• Modelling HVHV delivery in patient
• Outlook to 2nd generation solutions

14.40  User Interface (UI) Design Considerations for Electronic Drug Delivery Devices
• UI design considerations for electronic auto injectors
• Opportunities and challenges with injectable drug delivery devices
• New horizons for healthcare products

15.20  SAN-DVs, Safe Auto-Needles for Use with Drugs in Vials - Combining the SAN-L for Self-Administration or the SAN-Light for Administration by Health Care Professionals (HCPs)
David Daily, CEO and Co-Founder and Hagay Drori, Product Manager, DALI Medical Devices, Israel

16.00  Discussion and Chairman's Closing Remarks

16.15  End of Conference and Tea

Exhibition Opportunities Available please contact Vicki Elliott on vicki.elliott@management-forum.co.uk
